CYSS CONNECTIONS

Military Kids Connect

Military youth live in a world of constant change and experience many challenges including multiple deployments of Family members and frequent moves to new schools and neighborhoods. Military Kids Connect (MKC) is an interactive website for military youth to help with the unique needs that are part of the military lifestyle. MKC offers a well designed

and easy to use online community for military children age 6-17 years old. This interactive web page provides access to age-appropriate resources to support children. MKC has online sections for kids ages 6-8, tweens ages 9-12, and teens ages 13-17. Each online environment offers informative activities, fun games, helpful videos, and resources that are categorized by age group. These online modules reinforce understanding, resilience, and coping skills for military children. In addition, there are helpful links and resources designed specifically for teachers and parents/caregivers. Youth can share their ideas, experiences, and suggestions with other military children through the new feature of a discussion board. This allows youth to connect with other military children and to know they are not alone in dealing with the stressors of military life.

CYSS Mission: To support readiness and quality of life by reducing the conflict between military mission requirements and parental responsibilities

4-H Military Partnerships: Supporting Military Youth through Collaborations

4-H Military Partnerships create opportunities and provide support to military connected youth whether they live on or near an installation, in a community, or on an overseas installation. 4-H clubs and opportunities provide consistency in belonging and an opportunity to develop life skills through a positive youth development framework.

4-H Military Partnerships represent a collaboration of the U.S. Department of Agriculture, the National Institute of Food and Agriculture, the U.S. Department of Defense, the Military Community and Family Policy, Army Child, Youth and School Services, Air Force Child and Youth Programs, Navy Child and Youth Programs, the Coast Guard, and the National Guard Bureau. The 4-H Military Partnerships support military youth through collaboration with military partners providing 4-H Clubs, afterschool programs, [camps](#), activities, and events on military installations and in local communities.

Military youth have unique issues including frequent relocations, adjusting to new communities and schools, separation anxiety regarding the safety of a deployed parent, and increased responsibilities at home especially when a parent is deployed. 4-H provides a safe, educational

supportive environment for the youth to come to after school when they are more likely to make poor choices or follow the crowd. It can also empower youth to be able to stand up to bullies and others that may be trying to get them to participate in risky behaviors.

The 4-H Program is built upon four Essential Elements ensuring that youth feel a sense of belonging in a safe environment, develop independence in both group and individual work, share with others in the community through generosity, and develop a sense of mastery that continues throughout life as they practice and share what they have learned with others. These programs have served youth in all military branches and components. These programs educate the public about the unique challenges of military youth; recruit volunteers; train educators, volunteers, and military youth program staff on the impact of deployment and 4-H curriculum.

As military families move frequently and experience the difficulties surrounding deployment and reintegration, 4-H provides predictable programming and a safe and nurturing environment for military connected children and youth. 4-H provides a support network delivering recreational, social and providing quality developmental programs so military members can pursue their critical assignments.
